Move For Mana

IT'S BACK!

LET'S GO OWLS!

Hi there KSS students, parents, and guardians! Did you know that according to recent UNICEF numbers, an estimated 16,000,000 children under the age of 5 years old around the world suffer from Severe Acute Malnutrition? These numbers have also been seen to be spiking across the globe due to the distress of the Covid-19 pandemic. This is where an initiative called Move4MANA enters. The Move4MANA Challenge is an initiative meant to inspire kids to get active in order to help spread awareness and create resources for those suffering from Severe Acute Malnutrition (SAM). It is our goal to help lessen this number of starving kids and help them have a chance at a bright future. The initiative is simple, through the app Active For Good, we ask students to log their activity daily which takes less than 5 minutes. That activity is then calculated into Good Points and after a certain amount of Good Points, it will equal one RUTF packet. RUTF stands for Ready to Use Therapeutic Food and is a vitamin and protein packed peanut based food product that will be delivered to our target country after the challenge is over. Kids suffering from SAM that consumed this product three times a day for six weeks saw a dramatic increase in overall health and well-being. As this is the second year we are bringing this challenge to KSS, the results from last year's challenge were truly amazing. As a community, KSS saved 300 lives last year and we are aiming to save even more lives this year. This all depends on our involvement, so please help us help the world
